

Sustainably delivered...

soluCLEAN
Sustainably Derived

Just add Water.

pHS Direct have a new consumable offering; a range of bio enzyme products that only use eco-friendly cleaning solutions. Ranging from disinfectants, anti-virals, de-greasers and many more.

Why have we partnered with soluCLEAN?

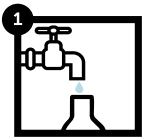

soluCLEAN are industry leaders in the marketplace, setting the standard with innovative products that produce little to no impact on the environment.

All **soluCLEAN** products are manufactured, testing, packaged and distributed in the UK.

All products are formulated for daily use with smaller product sizes reducing transportation costs and storage space. Example; One tub of 100 sachets equates to 5x5 litre containers!

How to use the products?

soluCLEAN products are packed in water soluble chemicals, the easy use means your cleaning product is ready to use in 4 steps.

FILL to the waterline

ADD the sachet

SHAKE, screw the spray head back on and shake the bottle

GO, once the sachet has dissolved, spray onto the cloth and use as needed.

pHS Direct, provide a complete range of specialist consumables. Our team can provide the expertise and know how to help save you money on your consumable spend. We deliver to your door within 48 hours

Why use soluCLEAN?

- 95% reduction in emissions in transportation for **phs** Direct
- Bottles are reusable eliminating single use plastic
- Bottles are printed not labelled, ensuring the key health and safety messaging is always legible
- Bottles are colour coded to certain areas i.e., all purpose = blue, anti-viral = green etc.
- Packaging of water solubles is cruelty free, vegan and biodegradable
- Liner service spray leaves a bio-film residue
- Cost controlled, exact dose each time
- Reduction of storage
- 20 to 150 sachets in a pack, no costly dispensing equipment required
